Company Overview

SECTOR	INDUSTRY	INDEX	ISIN
Financial Services	Financial Services	Nifty 200	INE0HOQ01053

Billionbrains Garage Ventures Ltd.

We show every factual field our data currently covers. We don't yet have a written business description, shareholding pattern, or segment breakdown for this company — rather than guess, that is left out until it's genuinely available from the pipeline.

SECTION 3

Financial Analysis

- Financial Snapshot
- Financial History & Growth Trends
- Financial Trend Charts
- Common-Size Statement

SECTION 3 OPENS WITH THE 3 NUMBERS THAT MATTER MOST

Financial Snapshot

P/E RATIO	P/B RATIO	RETURN ON EQUITY
—x	—x	—

P/E Ratio	Roughly how many years of current profit it would take to earn back today's share price. Lower can mean cheaper — but only means something read against the sector average (Section 4), not alone.
P/B Ratio	Compares the share price to the company's accounting net worth per share. A P/B well above 1x means the market values the business far above its stated book assets.
Return on Equity (ROE)	How efficiently the company turns shareholder capital into profit. Consistently higher ROE than peers, at similar leverage, generally signals a stronger underlying business.

Full historical trend, growth-rate analysis, and chart-by-chart commentary follow over the next several pages of this section.

Financial History (last 4 years)

Metric (Rs Cr)	FY2023	FY2024	FY2025	FY2026
Total Revenue	—	—	3,582	4,270
Net Income	—	—	—	2,083
EBITDA	—	—	2,529	2,913
Total Debt	—	—	—	292
Stockholders Equity	—	—	—	9,651
Free Cash Flow	—	—	—	-33
ROE	—	—	—	21.6%

Year-over-year growth

YoY Growth	FY2024	FY2025	FY2026
Revenue Growth	—	—	+19.2%
Net Income Growth	—	—	—

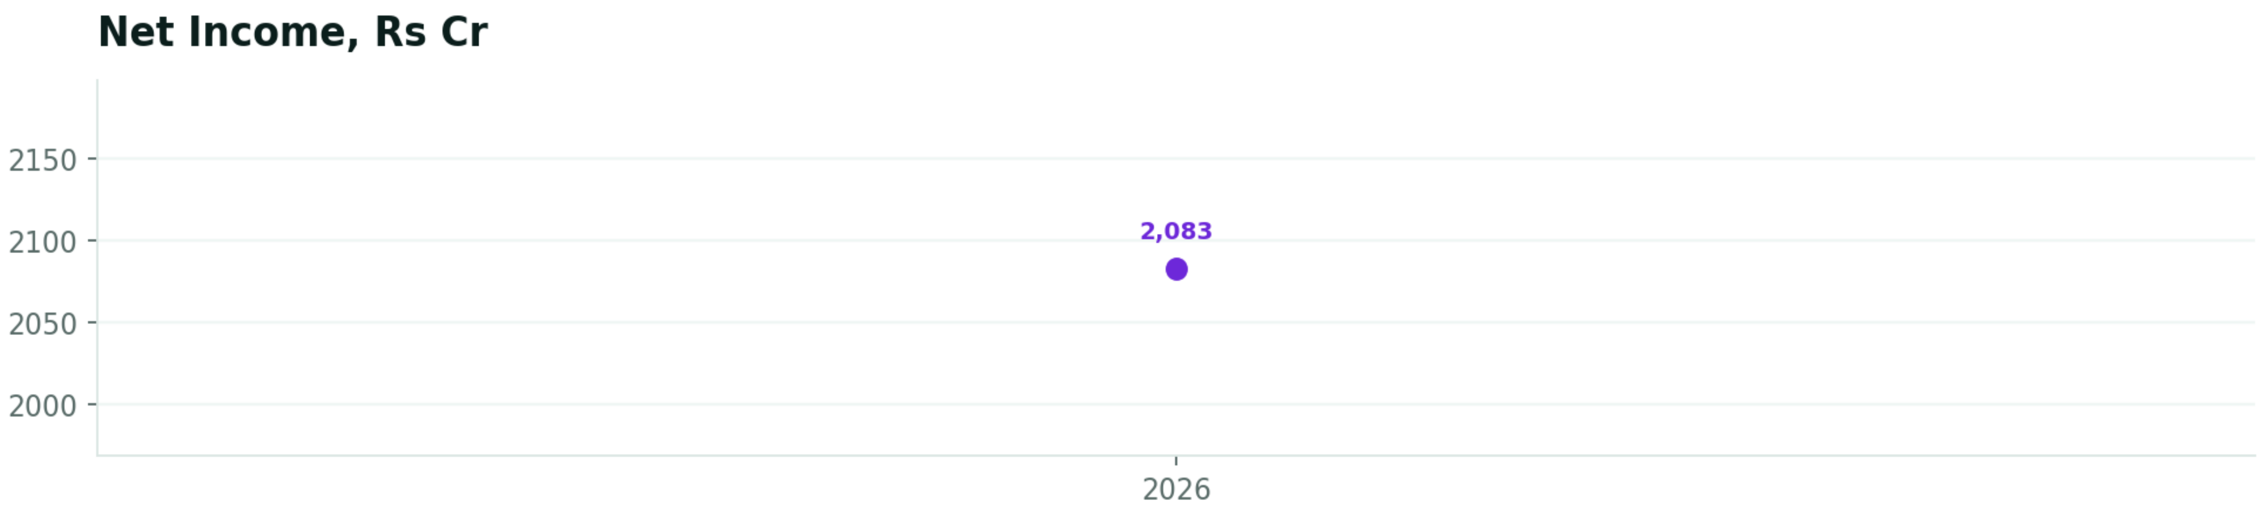
FINANCIAL TREND ANALYSIS 1 OF 4

Revenue Trend

KEY TAKEAWAY › GROWW's revenue trend over FY2023-FY2026 shown above — see the bullets for what's actually driving the shape of this line, not just its direction.

FINANCIAL TREND ANALYSIS 2 OF 4

Profitability Trend



KEY TAKEAWAY › Net Income for GROWW across FY2023-FY2026 — read alongside the Revenue Trend page to see whether profit is growing with, faster, or slower than revenue.

FINANCIAL TREND ANALYSIS 3 OF 4

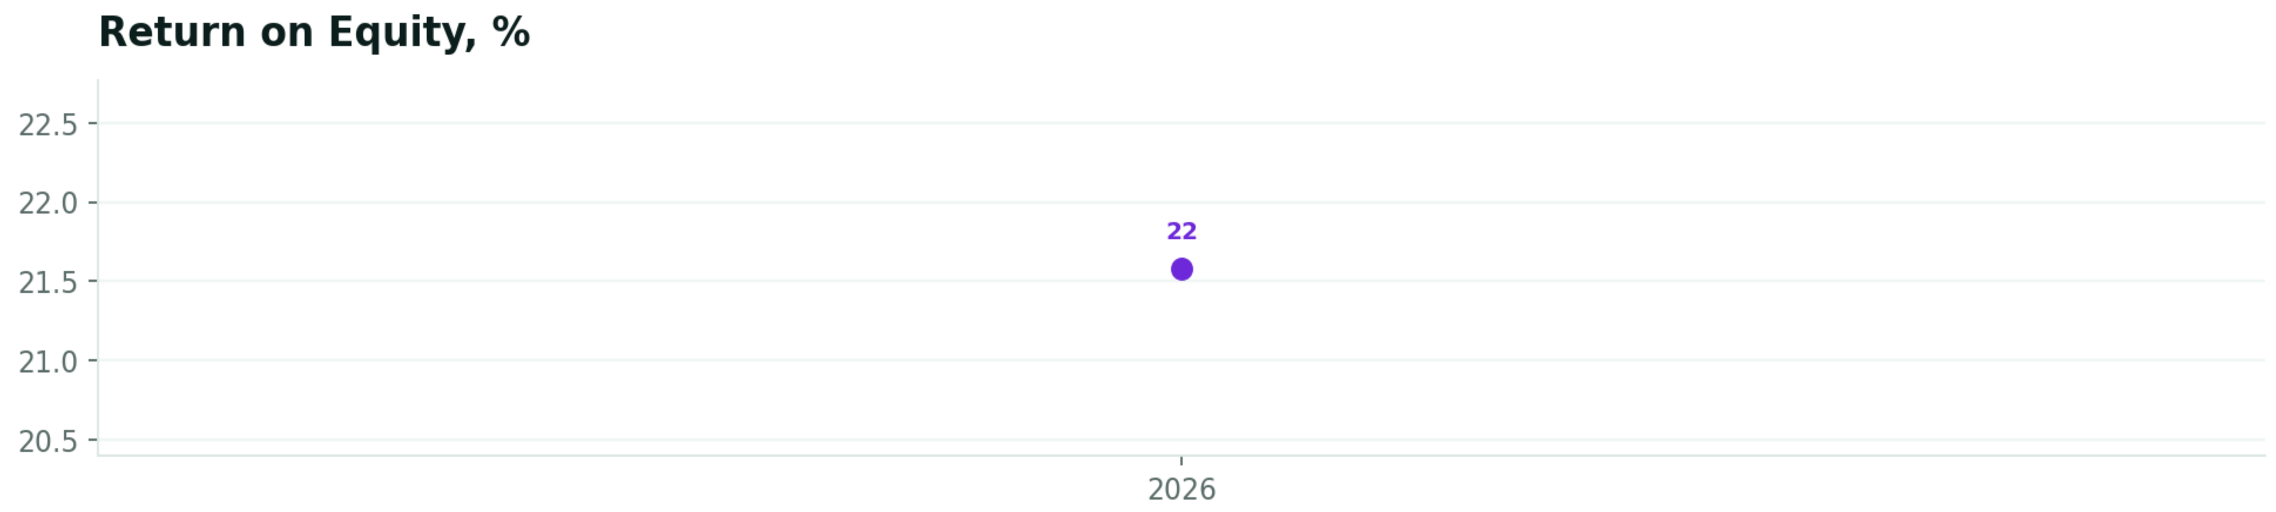
Operating Profit vs. Leverage

- EBITDA margin moved from 70.6% to 68.2% over the period — pressure on core operating efficiency, independent of one-off items.
- At the latest EBITDA of Rs 2,913 Cr against Rs 292 Cr of debt, it would take roughly 0.1 years of current EBITDA to clear all debt — the Debt-to-EBITDA figure on the Leverage page.

KEY TAKEAWAY › EBITDA (operating profit) plotted against Total Debt for GROWW — the gap or convergence between these two lines is the core leverage story for this company.

FINANCIAL TREND ANALYSIS 4 OF 4

Return on Equity Trend



- Average ROE across the 1 years shown was 21.6% — compare this to the Sector Comparison page to judge whether this is a structurally strong or weak return on capital for this industry.

KEY TAKEAWAY › GROWW's ROE trend — the Sector Comparison page next shows whether this is strong or weak relative to real sector peers, not just relative to its own past.

WHAT THIS TABLE MEANS

Common-Size Statement (% of Revenue) (1/2)

What is this? A common-size statement restates every P&L line as a percentage of that year's Total Revenue instead of a raw Rupee figure. That makes it possible to compare cost and margin structure across years (or against a peer of a different size) on a level footing — e.g. if Net Income was 4.8% of revenue in FY23 and 6.1% in FY26, profitability improved even if you ignore the absolute Rupee numbers entirely.

FULL TABLE, EVERY LINE ITEM

Common-Size Statement (% of Revenue) (2/2)

% of Revenue	FY2023	FY2024	FY2025	FY2026
Net Income	—	—	—	48.8%
EBITDA	—	—	70.6%	68.2%
Total Debt	—	—	—	6.8%
Stockholders Equity	—	—	—	226.0%
Total Assets	—	—	—	434.2%
Operating Cash Flow	—	—	—	-0.5%

Shows how each line item has moved relative to revenue over time — a shrinking Net Income % of revenue, for instance, means margins are under pressure even if revenue itself is growing.

SECTION 4

Peer & Sector Benchmarking

- Sector Comparison
- Leverage & Solvency Ratios

BALANCE-SHEET RISK, VISUALIZED

Leverage & Solvency Ratios

Debt-to-Equity above ~1x, or Debt-to-EBITDA above ~3x, generally signals a more leveraged balance sheet — worth weighing against the sector norm before drawing conclusions.

KEY TAKEAWAY › Debt-to-Equity of 0.03x is below the ~1x watch level — leverage looks manageable on this measure alone.

Note: Liquidity ratios (Current/Quick Ratio) and Efficiency ratios (Asset/Inventory Turnover, Receivables Days) are not shown — our data source doesn't include Current Assets, Current Liabilities, Inventory or Receivables figures, so we're not able to compute these honestly.

SECTION 5

Valuation, Risk & Outlook

- Valuation Detail
- Why This Verdict
- 3-Year Trend-Based Forecast
- Risk Flags

HOW CLEARSTOCKS REACHED THIS VERDICT — METHODOLOGY

Valuation Detail

STEP 1	STEP 2	STEP 3	STEP 4
STOCK'S OWN MULTIPLES	SECTOR PEER MEDIAN	PREMIUM / DISCOUNT	VERDICT
P/E —x	—	—	Not yet scored
From live market price ÷ trailing EPS	Median across 0 Nifty 200 Financial Services peers	Stock's multiple vs. that peer median	Mechanical rule, not a subjective call

WHAT THIS DOES CAPTURE

- Whether the stock is priced richer or cheaper than same-sector peers right now
- A repeatable, mechanical comparison — same rule applied to all 200 stocks

WHAT THIS DOES NOT CAPTURE

- Whether the premium is justified by superior growth, order book, or moat
- The company's own valuation history — only today's peer snapshot

KEY TAKEAWAY › GROWW is flagged **Not yet scored** because its current multiple sits — — a data comparison, not a judgement on whether that premium is deserved.

INSIGHT SCORE METHODOLOGY

Why This Verdict

STEP 1	STEP 2	STEP 3	STEP 4
INPUT FEATURES	ML MODEL	PEER RANKING	COMBINED READ
Fundamentals	Trained on history	—/100	Full valuation model not yet run for this stock
Profitability, debt trend, capex pattern, growth	Learns patterns in past company fundamentals	Estimated rank vs. sector peers, not a price target	Insight Score + Valuation Verdict together

KEY TAKEAWAY › Full valuation model not yet run for this stock — a weak Insight Score combined with a valuation that's — is what mechanically produces this read; it is not a prediction of where the stock goes next.

Past patterns in fundamentals are not a guarantee of future results — this is a research signal, not investment advice.

3-Year Trend-Based Forecast

This is not a professional forecast or a DCF model. It's a simple, mechanical projection: we take the actual growth rate this company posted over its last 3 years of available data, and extend that same rate forward. Real results depend on far more than a straight-line extrapolation of the past.

Not enough clean historical data to extrapolate a forecast for this stock.

4 MECHANICAL CHECKS RUN AGAINST THE NUMBERS ABOVE

Risk Flags

DEBT TREND	MARGIN TREND	FREE CASH FLOW	LEVERAGE
CLEAR	**CLEAR**	**CLEAR**	**CLEAR**
Total Debt rising every year	Net margin declining every year	Most recent year negative	Debt-to-Equity above 1.5x

KEY TAKEAWAY › All 4 mechanical checks come back clear — no rising-debt, declining-margin, negative-FCF or elevated-leverage pattern detected. This is not a full risk assessment; always verify independently.

SECTION 6

Appendix & Methodology

- Risks & Limitations
- Disclaimers
- Appendix — Raw Financial Data
- Glossary & Methodology

Risks & Limitations

- This deck is generated automatically from a statistical model and public data — it has not been reviewed by a financial analyst.
- Historical patterns the model relies on may not repeat in the future.
- Data may be delayed or contain provider errors; always verify key figures independently.
- The 3-year forecast above is a mechanical extrapolation of past growth, not a professional projection — it does not account for competition, macro conditions, or company-specific plans.
- This is not a substitute for professional financial advice.

Disclaimers

1. General: This document is produced by an independent, personal research project (ClearStocks) for educational purposes only.
2. Not Investment Advice: Nothing in this deck is financial, investment, legal or tax advice.
3. No Recommendation: The Insight Score and valuation verdict are model outputs, not a recommendation to buy, hold or sell.
4. Data Accuracy: Figures are sourced from public data providers and may contain errors, delays or omissions.
5. No Guarantee: Historical performance and model scores do not guarantee future results.
6. Liability: The creator of this deck accepts no liability for losses arising from its use.

EVERY NUMBER IN THIS DECK, TRACEABLE

Appendix — Raw Financial Data

Every figure used to build the tables, charts, ratios and forecast in this deck, exactly as recorded per fiscal year, converted to Rs Crore to match every other table above. Use this to verify any calculation independently.

Metric	2023-03-31	2024-03-31	2025-03-31	2026-03-31
Total Revenue (Rs Cr)	—	—	3,582	4,270
Net Income (Rs Cr)	—	—	—	2,083
EBIT (Rs Cr)	—	—	2,504	2,865
EBITDA (Rs Cr)	—	—	2,529	2,913
Total Debt (Rs Cr)	—	—	—	292
Stockholders Equity (Rs Cr)	—	—	—	9,651
Cash & Equivalents (Rs Cr)	—	—	—	1,165
Total Assets (Rs Cr)	—	—	—	18,541
Free Cash Flow (Rs Cr)	—	—	—	-33
Operating Cash Flow (Rs Cr)	—	—	—	-21
Capital Expenditure (Rs Cr)	—	—	—	-12
ROE	—	—	—	21.58%

Glossary & Methodology

P/E Ratio — Price-to-Earnings: share price divided by earnings per share. Roughly, how many years of current profit it would take to earn back today's price.

P/B Ratio — Price-to-Book: share price divided by book value (net worth) per share.

ROE — Return on Equity: Net Income divided by Stockholders Equity — how efficiently a company turns shareholder capital into profit.

EBITDA — Earnings Before Interest, Tax, Depreciation & Amortisation — a proxy for core operating profitability before financing and accounting effects.

Free Cash Flow — Operating Cash Flow minus Capital Expenditure — cash actually left over after running and maintaining the business.

Debt-to-Equity — Total Debt divided by Stockholders Equity — how much of the balance sheet is funded by borrowing vs. owners' capital.

Debt-to-EBITDA — Total Debt divided by EBITDA — roughly, how many years of operating profit it would take to pay off all debt.

CAGR — Compound Annual Growth Rate — the constant year-over-year growth rate that would take a starting value to an ending value over a given number of years.

Common-Size Statement — Every financial-statement line shown as a percentage of Total Revenue for that year, making it easy to compare structure across years regardless of company size.

Insight Score — ClearStocks' own 0-100 model output, estimating how a stock's fundamentals rank against its peers based on historical patterns.

Data & methodology, in brief: financial history comes from this project's own fundamentals pipeline, sourced from company financial statements. Sector and competitor figures are computed live from the same Nifty 200 dataset the website uses — every peer is a real company with real, current figures, never a synthetic average. The 3-year forecast is a compound-growth extrapolation of each company's own historical CAGR, not a DCF model. Not included: Liquidity/Efficiency ratios (the underlying balance-sheet line items aren't in this data source) — omitted rather than estimated.

Thank you.

This concludes the ClearStocks Company Deck for GROWW — Billionbrains Garage Ventures Ltd..
