Executive Summary

M&M — Mahindra & Mahindra Ltd.

Cheap vs peers (P/E, -47%)

INSIGHT SCORE	SECTOR	CURRENT PRICE	COMBINED READ
77/100	**Automobile and Auto Components**	**—**	**Strong profitability**

- Brokerage views are sharply split between bull and bear cases on this stock (see Analyst Perspectives in Section 5 for the specific points on each side).
- Revenue grew at a 17.5% CAGR over the last 3 years of available financial history (see Section 3).

This is a data snapshot for research purposes only — it is not investment advice, and it is not a recommendation to buy, hold or sell this stock. See the Disclaimers section at the end of this deck.

Key Statistics

CURRENT PRICE	REPORT DATE	INSIGHT SCORE	MARKET CAP
—	September 2026	77/100	Rs 380,642 Cr

Valuation Verdict: Cheap vs peers (P/E, -47%) · **Model Read:** Strong profitability (ROE) trading below its sector's typical valuation.

Company Overview

SECTOR	INDUSTRY	INDEX	ISIN
Automobile and Auto Components	Automobile and Auto Components	Nifty 200	INE101A01026

Mahindra & Mahindra Ltd.

Founded 1945 (as Mahindra & Mohammed; renamed Mahindra & Mahindra in 1948) — One of India's largest diversified conglomerates by revenue, built around a core automotive and farm equipment business: SUVs (XUV700, Scorpio-N, Thar) and light commercial vehicles, plus India's largest tractor business by volume. Group entities and stakes also span financial services (Mahindra Finance), IT services (Tech Mahindra, separately listed), and real estate/hospitality, with the automotive and farm equipment segments consolidated within the M&M parent listing..

- **Automotive (SUVs, LCVs)**
- **Farm Equipment (Tractors)**
- **Financial Services**
- **Industrial & Consumer Services (incl. Tech Mahindra, real estate)**

A full company profile, shareholding pattern, segment breakdown and industry context follow in Section 2 of this report.

SECTION 2

Company, Industry & Leadership

Company Profile

COMPANY AGE	HEADQUARTERS	BUSINESS SEGMENTS	INDEX MEMBERSHIP
81 years	Mumbai, Maharashtra, India	4	Nifty 200

OWNERSHIP

The Mahindra family and related promoter entities hold roughly 18.45% of the company -- a comparatively low promoter stake for an Indian conglomerate of this scale, reflecting the group's long history as a widely-institution-held company. Foreign Institutional Investors are the single largest category at roughly 34.9%, Mutual Funds hold about 18.2%, Insurance companies ~10.9%, other Domestic Institutions ~3.7%, and retail/public investors the remaining ~13.95%.

OPERATIONS

One of India's largest diversified conglomerates by revenue, built around a core automotive and farm equipment business: SUVs (XUV700, Scorpio-N, Thar) and light commercial vehicles, plus India's largest tractor business by volume. Group entities and stakes also span financial services (Mahindra Finance), IT services (Tech Mahindra, separately listed), and real estate/hospitality, with the automotive and farm equipment segments consolidated within the M&M parent listing.

Sources: Choice India — M&M Shareholding Pattern

Shareholding Pattern

FII (Foreign Institutions)	34.9%
Promoter (Mahindra family & entities)	18.45%
Mutual Funds	18.15%
Public / Retail	13.95%
Insurance Companies	10.87%
Other DII	3.69%

Sources: Choice India — M&M Shareholding Pattern

KEY TAKEAWAY › At under 20%, M&M's promoter stake is unusually low for an Indian family-founded conglomerate -- FIIs alone hold nearly double the promoter stake, which is closer to the ownership structure of a professionally-run company like L&T than to most other family-led Indian industrial groups.

Industry Context

M&M's Q1 FY27 results (July 2026) showed consolidated net profit up 33.6% YoY to Rs 5,454.5 Cr, on revenue up 26.6% YoY to Rs 57,533.4 Cr, with profit before tax climbing 35.2% to Rs 7,628.1 Cr. Automotive segment revenue surged 32.3% to Rs 34,387.3 Cr with segment results up 28.3%. Farm Equipment (tractors) grew more modestly, with revenue up 14.8% to Rs 12,500.8 Cr and segment results up 9.2%. The standout was Financial Services, where segment results nearly doubled (+78.9%) to Rs 1,223.6 Cr on 14.6% revenue growth, and Industrial & Consumer Services (which includes the Tech Mahindra stake and other group businesses), where segment results grew 95.6% on 46.9% revenue growth. The company's regulatory filing did not disclose vehicle or tractor unit volumes, market share, or realisation trends for the quarter.

Sources: Business Standard — M&M Q1 FY27 Results

KEY TAKEAWAY › The auto segment (SUVs) is still the largest profit driver, but this quarter's real standout was the near-doubling of Financial Services and Industrial & Consumer Services segment profits -- a reminder that M&M's earnings increasingly depend on more than just vehicle sales.

COMPETITIVE LANDSCAPE

Industry Context

Player	Category	Position vs. M&M
Tata Motors	Large-cap automaker (passenger & commercial vehicles)	M&M's closest broad comparison in Indian autos, though Tata Motors also has a large global commercial vehicle and JLR luxury business that M&M does not.
Maruti Suzuki	India's largest passenger vehicle maker by volume	Stronger in mass-market hatchbacks/sedans; M&M has built its recent growth specifically around premium SUVs, a different part of the market than Maruti's core volume base.
Escorts Kubota	Tractor and farm equipment maker	A smaller, tractor-focused peer useful for isolating farm-equipment-segment trends separate from M&M's larger automotive business.

Sources: Outlook Business — How CEO Anish Shah revived M&M with SUVs

KEY TAKEAWAY › M&M's turnaround under CEO Anish Shah has been widely credited to a deliberate SUV-first strategy (XUV700, Scorpio-N, Thar) combined with portfolio rationalization (exiting or scaling back non-core businesses) -- a strategy analysts consistently reference when comparing M&M's re-rating to peers like Tata Motors.

BOARD & SENIOR MANAGEMENT ROSTER

Leadership

Managing Director & Chief Executive Officer	Anish Shah
Chairman	Anand Mahindra

SECTION 3

Financial Analysis

- Financial Snapshot
- Financial History & Growth Trends
- Financial Trend Charts
- Common-Size Statement

SECTION 3 OPENS WITH THE 3 NUMBERS THAT MATTER MOST

Financial Snapshot

P/E RATIO	P/B RATIO	RETURN ON EQUITY
19.3x	3.8x	18.4%

P/E Ratio	Roughly how many years of current profit it would take to earn back today's share price. Lower can mean cheaper — but only means something read against the sector average (Section 4), not alone.
P/B Ratio	Compares the share price to the company's accounting net worth per share. A P/B well above 1x means the market values the business far above its stated book assets.
Return on Equity (ROE)	How efficiently the company turns shareholder capital into profit. Consistently higher ROE than peers, at similar leverage, generally signals a stronger underlying business.

Full historical trend, growth-rate analysis, and chart-by-chart commentary follow over the next several pages of this section.

Financial History (last 4 years)

Metric (Rs Cr)	FY2023	FY2024	FY2025	FY2026
Total Revenue	119,040	135,803	155,645	193,098
Net Income	10,282	11,269	12,929	17,099
EBITDA	24,088	27,848	33,492	41,228
Total Debt	92,247	106,626	124,949	133,963
Stockholders Equity	56,366	66,191	77,039	93,096
Free Cash Flow	-13,379	-15,576	-7,216	2,052
ROE	18.2%	17.0%	16.8%	18.4%

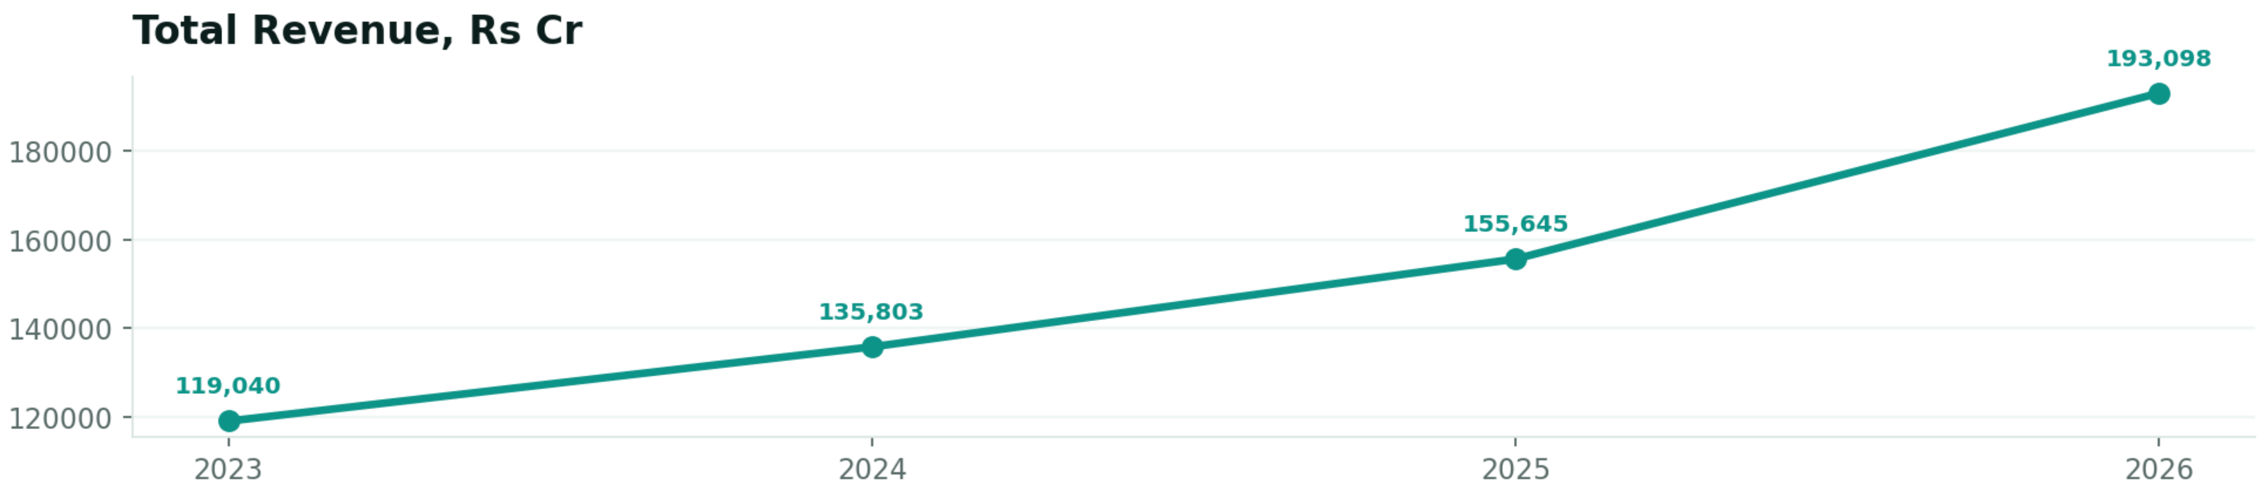
Year-over-year growth

YoY Growth	FY2024	FY2025	FY2026
Revenue Growth	+14.1%	+14.6%	+24.1%
Net Income Growth	+9.6%	+14.7%	+32.3%

KEY TAKEAWAY › Revenue grew at a 17.5% CAGR and Net Income at a 18.5% CAGR over the last 3 years of available data — profit growth outpaced revenue growth, suggesting improving margins.

FINANCIAL TREND ANALYSIS 1 OF 4

Revenue Trend

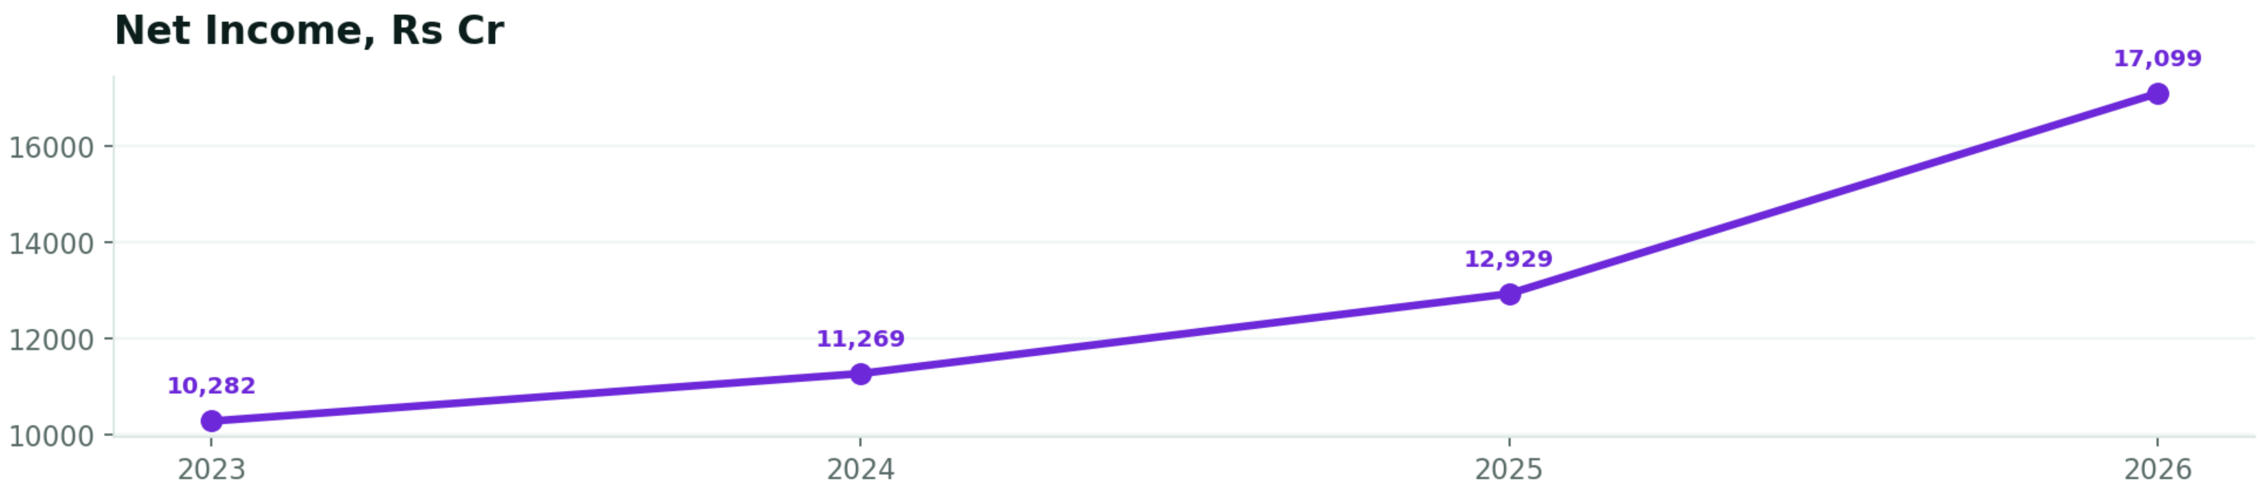


- Revenue grew 62% cumulatively from FY2023 to FY2026 (Rs 119,040 Cr → Rs 193,098 Cr), a 17.5% CAGR over 3 years.
- Growth has accelerated every year — FY2024 at +14.1% up to FY2026 at +24.1% — a sign of building, not fading, momentum.

KEY TAKEAWAY › M&M's revenue trend over FY2023-FY2026 shown above — see the bullets for what's actually driving the shape of this line, not just its direction.

FINANCIAL TREND ANALYSIS 2 OF 4

Profitability Trend

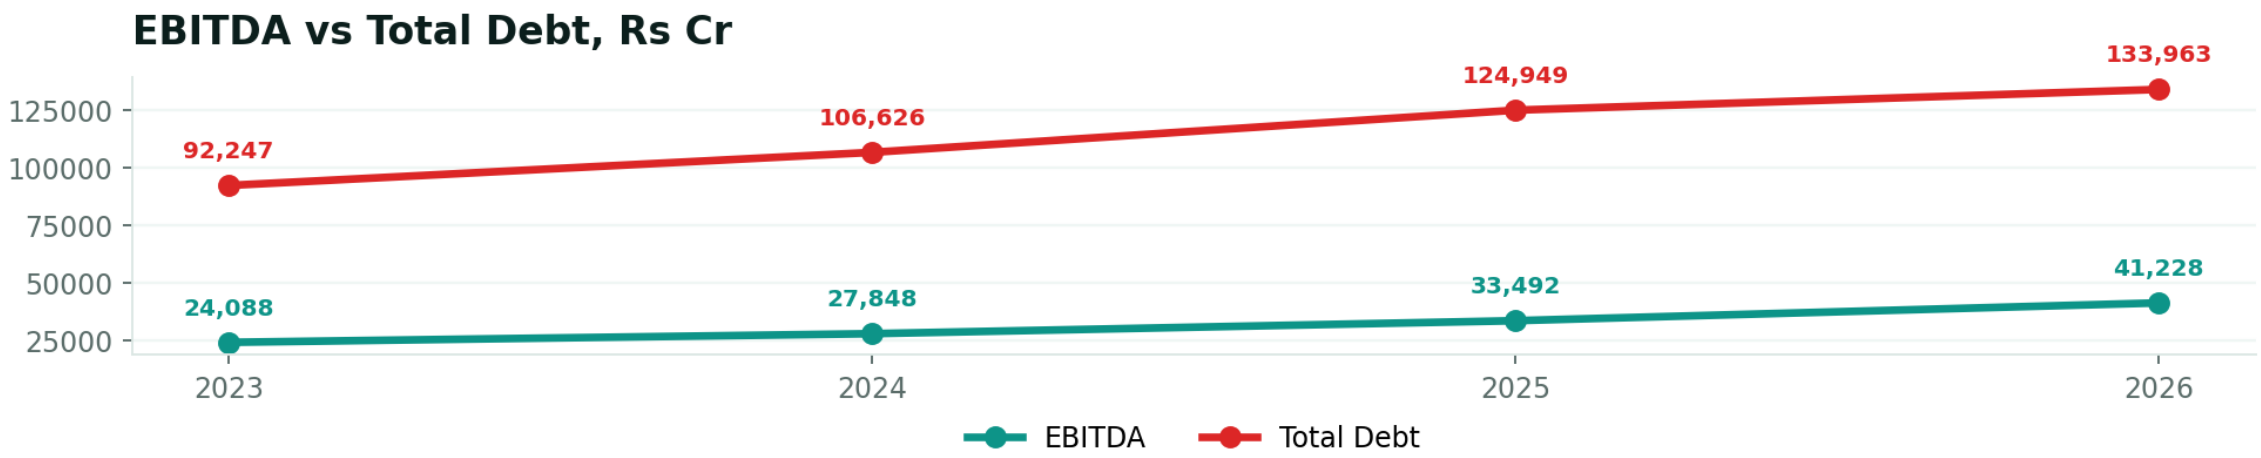


- Net margin moved from 8.6% in FY2023 to 8.9% in FY2026 — expanding profitability on each rupee of revenue.
- Net Income CAGR (18.5%) has outpaced Revenue CAGR (17.5%) — classic operating leverage: fixed costs are being spread over a larger revenue base.

KEY TAKEAWAY › Net Income for M&M across FY2023-FY2026 — read alongside the Revenue Trend page to see whether profit is growing with, faster, or slower than revenue.

FINANCIAL TREND ANALYSIS 3 OF 4

Operating Profit vs. Leverage

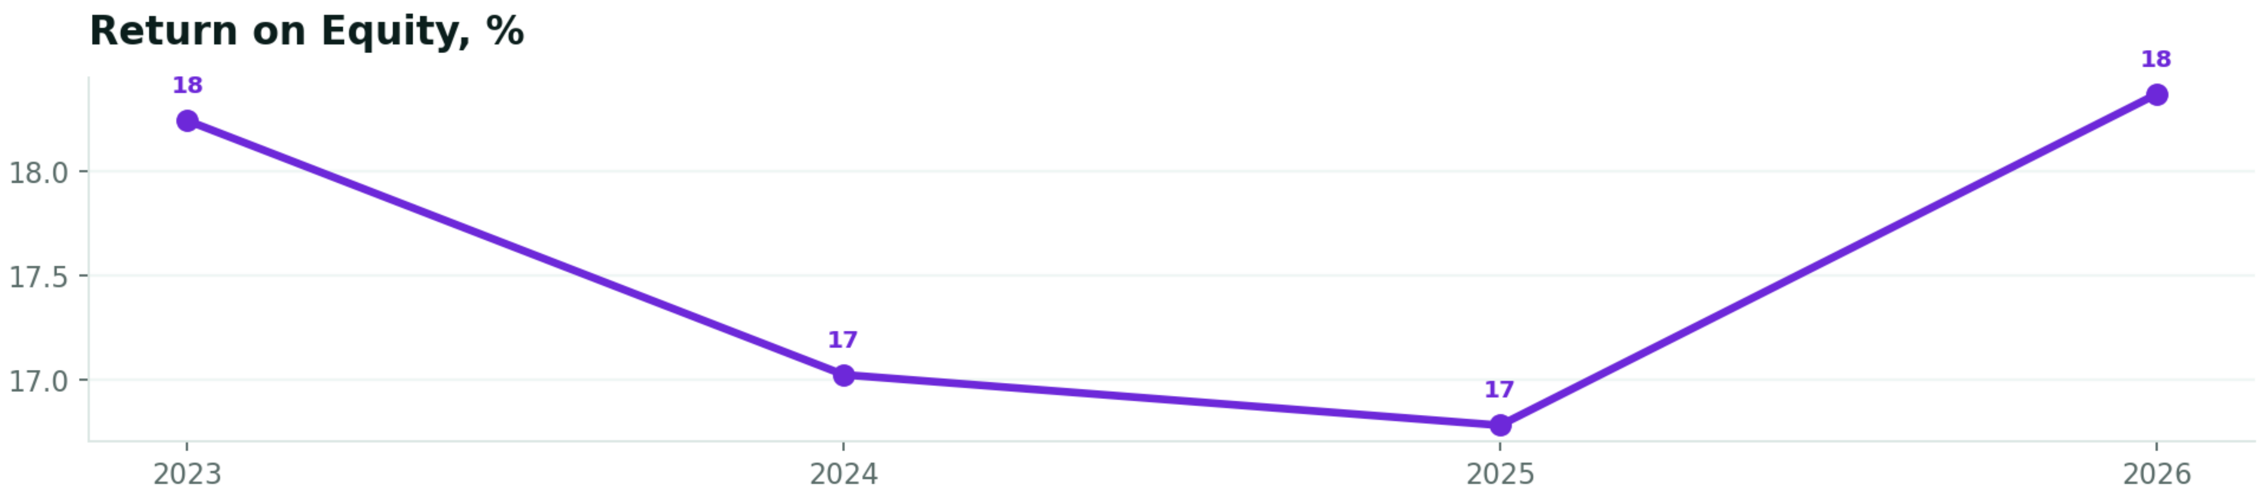


- EBITDA margin moved from 20.2% to 21.4% over the period — a genuine improvement in core operating efficiency.
- Total Debt has risen 45% over the period (Rs 92,247 Cr → Rs 133,963 Cr) while EBITDA grew — the operating profit base has kept pace with rising leverage.
- At the latest EBITDA of Rs 41,228 Cr against Rs 133,963 Cr of debt, it would take roughly 3.2 years of current EBITDA to clear all debt — the Debt-to-EBITDA figure on the Leverage page.

KEY TAKEAWAY › EBITDA (operating profit) plotted against Total Debt for M&M — the gap or convergence between these two lines is the core leverage story for this company.

FINANCIAL TREND ANALYSIS 4 OF 4

Return on Equity Trend



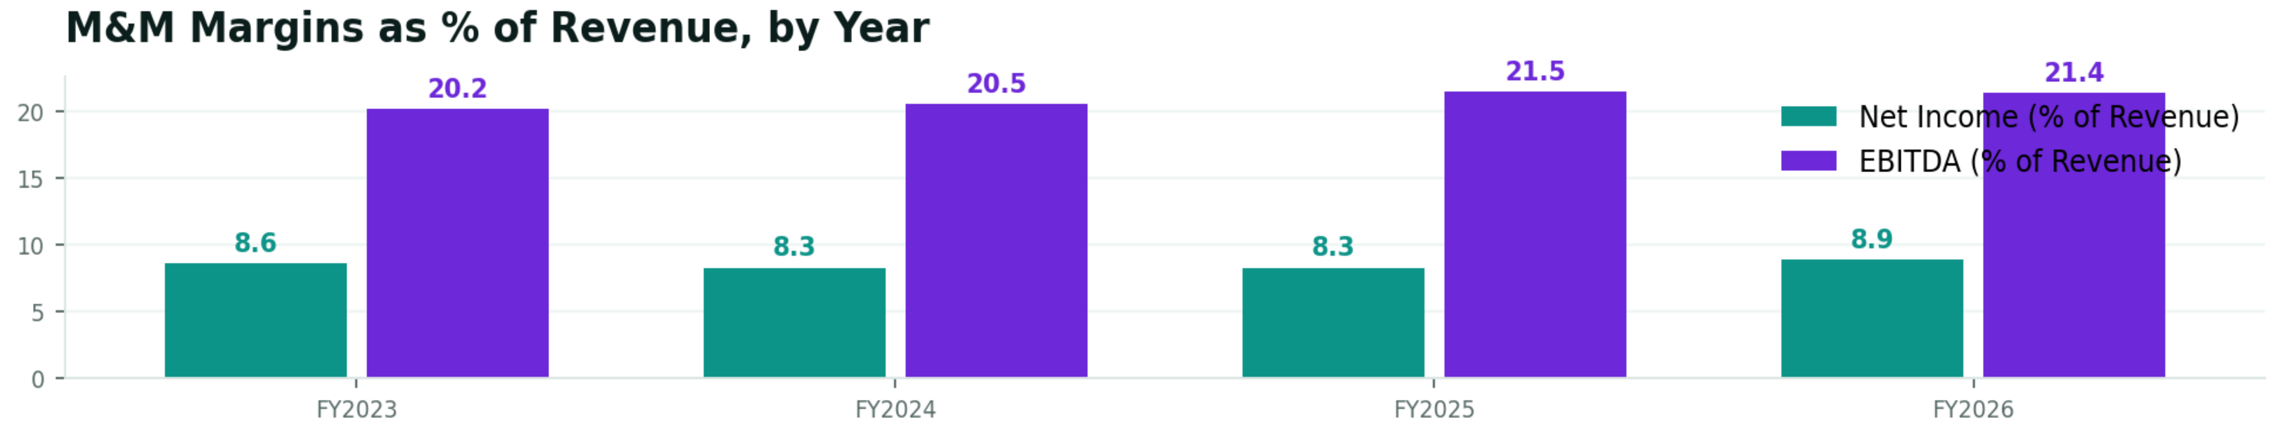
- ROE moved from 18.2% to 18.4% over FY2023-FY2026 — a meaningful improvement in how efficiently shareholder capital is being turned into profit.
- Shareholder Equity grew 65% over the period (retained profits accumulating on the balance sheet) — a larger equity base makes a given ROE % harder to sustain without proportionally larger profit growth.
- Average ROE across the 4 years shown was 17.6% — compare this to the Sector Comparison page to judge whether this is a structurally strong or weak return on capital for this industry.

KEY TAKEAWAY › M&M's ROE trend — the Sector Comparison page next shows whether this is strong or weak relative to real sector peers, not just relative to its own past.

WHAT THIS TABLE MEANS

Common-Size Statement (% of Revenue) (1/2)

What is this? A common-size statement restates every P&L line as a percentage of that year's Total Revenue instead of a raw Rupee figure. That makes it possible to compare cost and margin structure across years (or against a peer of a different size) on a level footing — e.g. if Net Income was 4.8% of revenue in FY23 and 6.1% in FY26, profitability improved even if you ignore the absolute Rupee numbers entirely.



KEY TAKEAWAY › EBITDA margin moved from 20.2% of revenue in FY2023 to 21.4% in FY2026 — the full year-by-year breakdown, including Total Debt, Equity and Cash Flow as a % of revenue, is on the next page.

FULL TABLE, EVERY LINE ITEM

Common-Size Statement (% of Revenue) (2/2)

% of Revenue	FY2023	FY2024	FY2025	FY2026
Net Income	8.6%	8.3%	8.3%	8.9%
EBITDA	20.2%	20.5%	21.5%	21.4%
Total Debt	77.5%	78.5%	80.3%	69.4%
Stockholders Equity	47.4%	48.7%	49.5%	48.2%
Total Assets	173.0%	174.0%	178.3%	164.5%
Operating Cash Flow	-5.9%	-4.1%	2.0%	6.0%

Shows how each line item has moved relative to revenue over time — a shrinking Net Income % of revenue, for instance, means margins are under pressure even if revenue itself is growing.

KEY TAKEAWAY › Total Debt moved from 77.5% of revenue to 69.4% over this period (-8.1 points) — cross-check this against the Leverage & Solvency page later in this section, which shows the same trend as a hard Debt-to-Equity ratio.

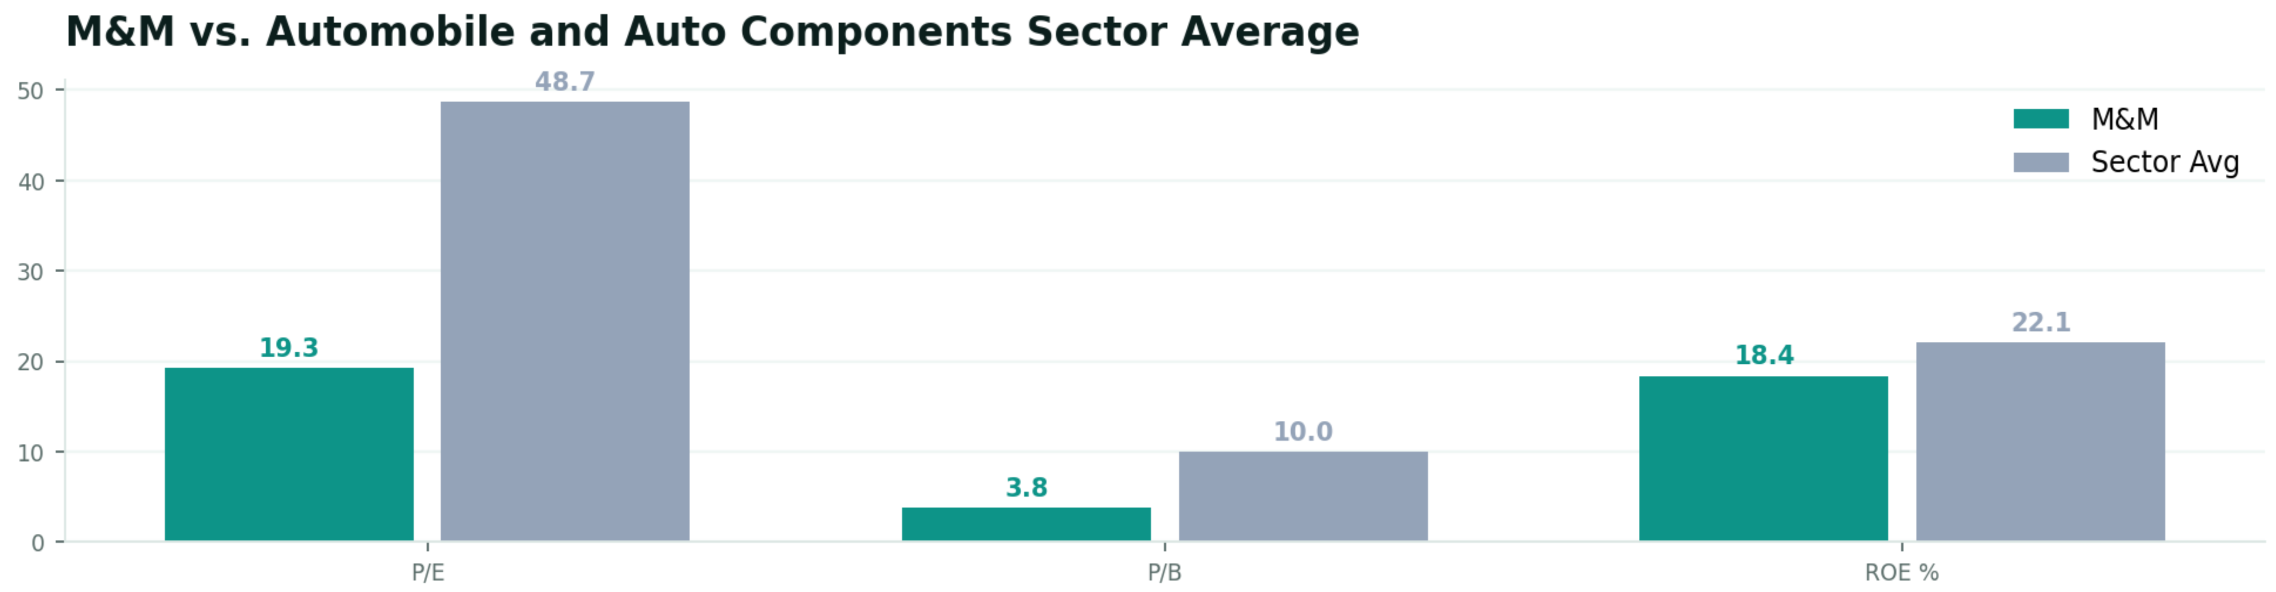
SECTION 4

Peer & Sector Benchmarking

- Sector Comparison
- Competitor Benchmark
- Peer Positioning Map
- Leverage & Solvency Ratios

STOCK VS. SECTOR AVERAGE, AT A GLANCE

Sector Comparison — Automobile and Auto Components



KEY TAKEAWAY › M&M's P/E is 60% below its sector average — trading at a discount, which can mean overlooked value or a real, priced-in problem.

Note: the sector average shown is a current, point-in-time snapshot across sector peers — we do not fabricate a multi-year historic sector-average series, since our data source does not carry that history reliably enough to publish it as fact.

Competitor Benchmark

Company	P/E	P/B	ROE	Mkt Cap (Cr)
M&M (this stock)	19.3	3.8	18.4%	380,642
MARUTI	28.2	3.7	13.7%	399,103
BAJAJ-AUTO	28.3	8.6	27.7%	327,539
EICHERMOT	36.6	8.3	22.0%	209,474
HYUNDAI	35.3	9.0	27.1%	179,165
MOTHERSON	38.9	4.1	9.4%	169,237
TMPV	—	1.0	73.5%	114,722

Compared against its largest sector peers within the Nifty 200 by market capitalisation (real figures from the same dataset, not estimates).

KEY TAKEAWAY › Among its 13 largest sector peers, TMPV has the highest ROE (73.5%) vs M&M's 18.4% — worth understanding why before treating either figure in isolation.

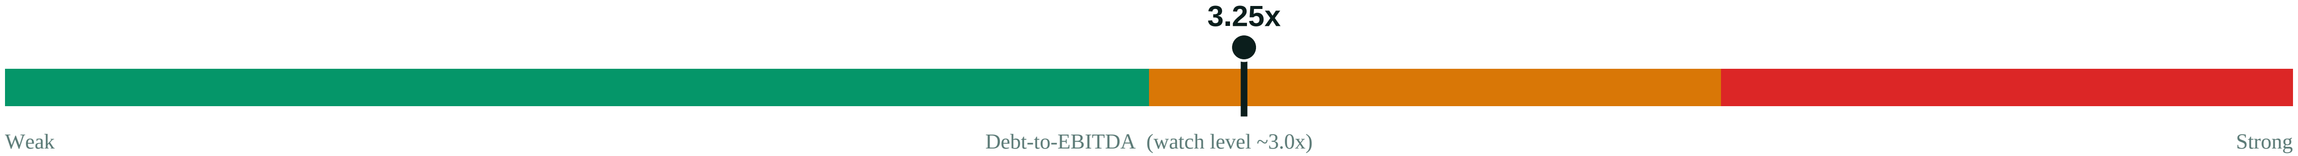
VALUATION VS. QUALITY, AT A GLANCE

Peer Positioning Map

KEY TAKEAWAY › M&M sits in the quadrant that is cheap with below-average returns — cheap for a reason until proven otherwise, relative to the peer set shown above.

BALANCE-SHEET RISK, VISUALIZED

Leverage & Solvency Ratios



Debt-to-Equity above ~1x, or Debt-to-EBITDA above ~3x, generally signals a more leveraged balance sheet — worth weighing against the sector norm before drawing conclusions.

KEY TAKEAWAY › Debt-to-Equity of 1.44x is above the ~1x watch level — leverage is a real factor to weigh here.

Note: Liquidity ratios (Current/Quick Ratio) and Efficiency ratios (Asset/Inventory Turnover, Receivables Days) are not shown — our data source doesn't include Current Assets, Current Liabilities, Inventory or Receivables figures, so we're not able to compute these honestly.

SECTION 5

Valuation, Risk & Outlook

- Valuation Detail
- Why This Verdict
- Analyst Perspectives — Bull vs. Bear
- Our Take
- What Would Change Our View
- 3-Year Trend-Based Forecast
- Risk Flags

HOW CLEARSTOCKS REACHED THIS VERDICT — METHODOLOGY

Valuation Detail

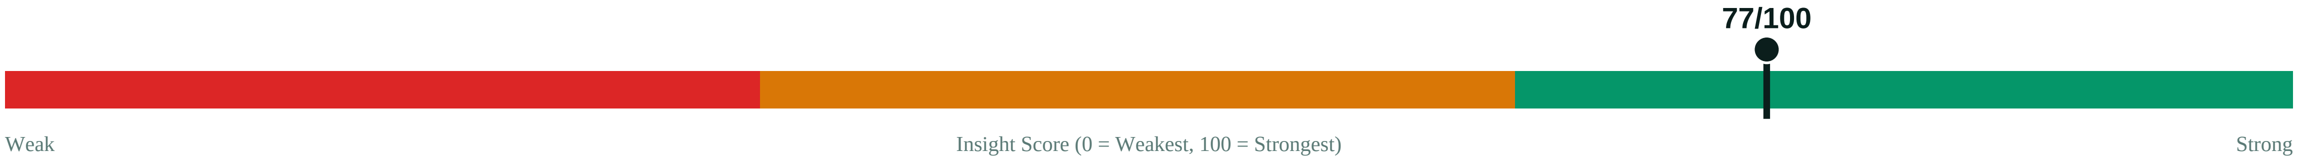
STEP 1	STEP 2	STEP 3	STEP 4
STOCK'S OWN MULTIPLES	SECTOR PEER MEDIAN	PREMIUM / DISCOUNT	VERDICT
P/E 19.3x	P/E 48.7x	-60% vs peers	Cheap vs peers
From live market price ÷ trailing EPS	Median across 12 Nifty 200 Automobile and Auto Components peers with live P/E	Stock's multiple vs. that peer median	Mechanical rule, not a subjective call

WHAT THIS DOES CAPTURE	WHAT THIS DOES NOT CAPTURE
• Whether the stock is priced richer or cheaper than same-sector peers right now	• Whether the premium is justified by superior growth, order book, or moat
• A repeatable, mechanical comparison — same rule applied to all 200 stocks	• The company's own valuation history — only today's peer snapshot

KEY TAKEAWAY › M&M is flagged **Cheap vs peers (P/E, -47%)** because its current multiple sits -60% vs peers — a data comparison, not a judgement on whether that premium is deserved.

INSIGHT SCORE METHODOLOGY

Why This Verdict



STEP 1
INPUT FEATURES
Fundamentals
Profitability, debt trend, capex pattern, growth

→

STEP 2
ML MODEL
Trained on history
Learns patterns in past company fundamentals

→

STEP 3
PEER RANKING
77/100
Estimated rank vs. sector peers, not a price target

→

STEP 4
COMBINED READ
Strong profitability
Insight Score + Valuation Verdict together

KEY TAKEAWAY › Strong profitability (ROE) trading below its sector's typical valuation. — a strong Insight Score combined with a valuation that's -60% vs peers is what mechanically produces this read; it is not a prediction of where the stock goes next.

Past patterns in fundamentals are not a guarantee of future results — this is a research signal, not investment advice.

THIRD-PARTY RESEARCH, PARAPHRASED & SOURCED

Analyst Perspectives — Bull vs. Bear

The views below are ClearStocks' own paraphrase of publicly reported brokerage/analyst commentary — not our own opinion, and not a reproduction of any single report. Each point is sourced.

THE BULL CASE

- Strong EV order-book momentum reported for the BE 6e and XEV 9e electric SUV launches, extending M&M's SUV-led turnaround into the EV transition.
- Farm equipment (tractor) segment recovery is anticipated by some analysts in FY27 after a more modest growth quarter.
- The Tech Mahindra stake represents a potential value-unlock catalyst separate from the core auto/farm business.
- Financial Services (Mahindra Finance) profit growth (+78.9% this quarter) is a meaningfully underappreciated earnings driver alongside the auto story.
- ROE is on a trajectory some analysts expect to approach 20%.

THE BEAR CASE

- US tariff uncertainty and broader macro headwinds were flagged as an overhang, alongside a noted single-week FII outflow of Rs 22,000 Cr from Indian equities in 2026.
- At roughly 28x trailing P/E in some analyst notes, valuation is seen as vulnerable in a risk-off environment.
- Regulatory headwinds in the automotive sector (emissions norms, safety regulations) are a recurring risk factor for all Indian automakers including M&M.
- The Q1 filing's lack of disclosed vehicle/tractor volumes and market share data limits how precisely investors can track demand trends quarter to quarter.

SCORECARD SYNTHESIS, NOT A BUY/SELL CALL

Our Take

INSIGHT SCORE	VALUATION	LEVERAGE (D/E)	ORDER BOOK
77/100	Cheap vs peers	1.44x	—

M&M's Q1 FY27 shows a business firing on more cylinders than just its well-known SUV franchise -- auto growth was strong, but the sharper profit growth actually came from Financial Services and the Industrial & Consumer Services segment. The bull case leans heavily on EV order books and a tractor-segment recovery that hasn't fully shown up in the numbers yet, while the bear case is mostly about macro and valuation risk rather than anything company-specific. This is a data snapshot, not a professional analyst's judgement call.

This is ClearStocks' own automated synthesis of the model output and the numbers above — not professional analyst commentary, and not investment advice.

SPECIFIC TRIGGERS, NOT A PREDICTION

What Would Change Our View (1/2)

WOULD MAKE US MORE POSITIVE	WOULD MAKE US MORE CAUTIOUS
• Debt-to-Equity is worked down from its current 1.44x — meaningful deleveraging would remove the balance-sheet overhang.	• P/E re-rates further above the Automobile and Auto Components sector average (48.7x) while ROE stays flat — that would mean the market is pricing in growth the numbers don't yet show. • Net Income growth reverses and turns negative for two consecutive years — the current growth trend is doing a lot of the work in this verdict.

KEY TAKEAWAY › 1 trigger on each side above, all tied to numbers already shown elsewhere in this deck — the next page turns this into a simple quarterly re-check process.

HOW TO USE THIS PAGE EACH QUARTER

What Would Change Our View (2/2)

STEP 1	STEP 2	STEP 3	STEP 4
Next Results	**Re-Check**	**Verdict Holds**	**Verdict Updates**
Quarterly earnings / annual report	Walk through the triggers on the prior page, one by one	If nothing on the prior page has moved	If a trigger on the prior page has fired

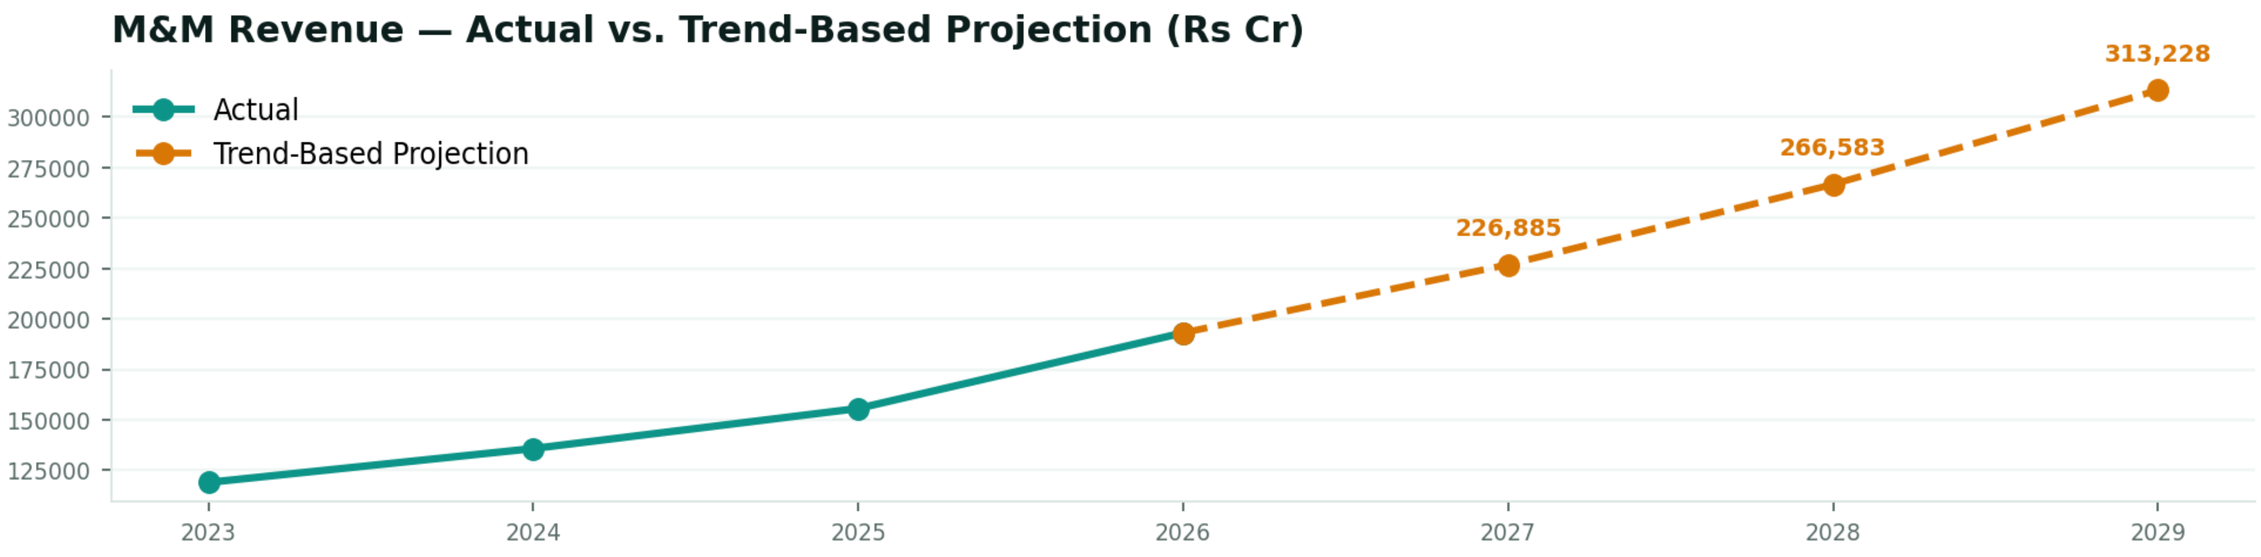
KEY TAKEAWAY › None of this is a prediction that any of these will happen — it's a checklist of exactly which numbers, from the sections already in this report, would change the read above if they moved. Re-check this deck against the next quarter's results using this page as the guide.

This is the one page in the deck designed to be reused, not just read once — bookmark it, and walk through both sides of the prior page's table every time M&M reports results.

3-Year Trend-Based Forecast

This is not a professional forecast or a DCF model. It's a simple, mechanical projection: we take the actual growth rate this company posted over its last 3 years of available data, and extend that same rate forward. Real results depend on far more than a straight-line extrapolation of the past.

Metric (Rs Cr)	FY2026 (actual)	FY2027E	FY2028E	FY2029E
Revenue	193,098	226,885	266,583	313,228
Net Income	17,099	20,258	24,002	28,437



Based on a historical Revenue CAGR of +17.5% and Net Income CAGR of +18.5% over the last 3 years.

4 MECHANICAL CHECKS RUN AGAINST THE NUMBERS ABOVE

Risk Flags

DEBT TREND	MARGIN TREND	FREE CASH FLOW	LEVERAGE
FLAGGED	CLEAR	CLEAR	CLEAR
Total Debt rising every year	Net margin declining every year	Most recent year negative	Debt-to-Equity above 1.5x

- Total Debt has risen every year for the last 4 years of available data.

These are mechanical checks on the numbers above, not a professional risk assessment.

Capital Expenditure (Rs Cr)	-6,305	-9,946	-10,392	-9,605
ROE	18.24%	17.02%	16.78%	18.37%

Glossary & Methodology

P/E Ratio — Price-to-Earnings: share price divided by earnings per share. Roughly, how many years of current profit it would take to earn back today's price.

P/B Ratio — Price-to-Book: share price divided by book value (net worth) per share.

ROE — Return on Equity: Net Income divided by Stockholders Equity — how efficiently a company turns shareholder capital into profit.

EBITDA — Earnings Before Interest, Tax, Depreciation & Amortisation — a proxy for core operating profitability before financing and accounting effects.

Free Cash Flow — Operating Cash Flow minus Capital Expenditure — cash actually left over after running and maintaining the business.

Debt-to-Equity — Total Debt divided by Stockholders Equity — how much of the balance sheet is funded by borrowing vs. owners' capital.

Debt-to-EBITDA — Total Debt divided by EBITDA — roughly, how many years of operating profit it would take to pay off all debt.

CAGR — Compound Annual Growth Rate — the constant year-over-year growth rate that would take a starting value to an ending value over a given number of years.

Common-Size Statement — Every financial-statement line shown as a percentage of Total Revenue for that year, making it easy to compare structure across years regardless of company size.

Insight Score — ClearStocks' own 0-100 model output, estimating how a stock's fundamentals rank against its peers based on historical patterns.

> **Data & methodology, in brief:** financial history comes from this project's own fundamentals pipeline, sourced from company financial statements. Sector and competitor figures are computed live from the same Nifty 200 dataset the website uses — every peer is a real company with real, current figures, never a synthetic average. The 3-year forecast is a compound-growth extrapolation of each company's own historical CAGR, not a DCF model. Not included: Liquidity/Efficiency ratios (the underlying balance-sheet line items aren't in this data source) — omitted rather than estimated.

Thank you.

This concludes the ClearStocks Company Deck for M&M — Mahindra & Mahindra Ltd..

ClearStocks · An independent, personal research project
